APSMIND TECHNOLOGY is Associated with HP Software University to Conduct Training Program at own Premises and interested College Premises.

Introduction:

Phone Gap is an open source framework building cross platform mobile apps.

Building application for each device I-Phone, Android, Windows Mobile and more requires different framework and languages. Phone Gap solves this by using standers based web technologies to bridge web application and mobile devices. Since Phone Gap apps are standards compliant, they are future-proofed to work with browsers they evolve.

The Phone Gap code was contributed to the Apache Software Foundation (ASF) under the name Apache Cordova and graduated to top- level project status in October 2012.

The Workshop is intended to:

- Develop Your own hybrid application compatible for Android ,Windows and IOs
- Learn to work on cross linking platforms
- Write attractive (GUI) application & Games
- Use built-in widgets and components
- Retrieve information from database

Workshops Technologies

Android App Development.

Ethical Hacking.

Auto Mobile Mechanic & Engine Design.

Arduino.

Quad copter.

Robotics & Embedded "C"

Matlab with Robotics.

8051/8052 Embedded "C"

PCB & Circvit Designing.

Registration charges
